

James Driscoll  
President, Atlantic Elevator Service

An important

# NON-PROPRIETARY PLEDGE

Your freedom of choice is important to us

*Atlantic Elevator Service is proud of the fact that we will never hold our customers hostage by installing proprietary elevator equipment of any kind. All of the equipment we install is readily able to be maintained and adjusted by any company in your service area. Whether your business remains an Atlantic Elevator Service customer after initial installation is a choice only you can make.*

## We make being a service customer an easy choice

Atlantic Elevator Service is confident that we can out-serve any elevator company in New England. Our reputation and record of providing the very best service this industry has to offer speaks loudly through the many satisfied customers we retain. We offer highly trained service experts, lightning-fast 24/7 response, and a vast parts inventory that is second to none. To that end, we make this unconditional guarantee : **Freedom of Choice**

## Look, read, and inquire before you purchase

Non-proprietary guarantees like ours are not readily available from every elevator company. An unfortunate fact of our industry is that most international corporations will not provide you with a complete system upon installation. In many cases, special diagnostic tools will be withheld, eliminating your opportunity to seek additional elevator companies of your choice to maintain or repair your elevators in the future. Atlantic's Freedom of Choice guarantee gives you peace of mind and the freedom you deserve to make service and repair choices on your own. *Let Freedom Ring!*

## Freedom of Choice Guarantee

### ▲ Unrestricted Equipment Purchases

All elevator systems installed, repaired, or modernized will only include equipment available for purchase by **any** elevator company. Atlantic Elevator Service meets all requirements for Universal Serviceability and Maintainability.

### ▲ Diagnostics

Atlantic Elevator Service will provide a complete elevator system including all available diagnostic tool functions. All devices needed for maintenance, adjusting, and troubleshooting will be provided to the customer at no additional charge. No product offered for installation will contain expiring software, degrading operation, or special key codes.

### ▲ Documentation

All equipment manuals, engineering drawings, circuit diagrams, and prints will be provided at time of delivery.

There when you need us
